Work Experience					
M A R C K S Network <ul style="list-style-type: none"><li>Article Assistant</li></ul>			April 2022 – July 2025		
<ul style="list-style-type: none"><li>As a part of a dynamic and fast-growing CA firm Network, I have worked across a diverse mix of traditional and modern practice areas including Valuations &amp; Modelling, Financial Due Diligence and Startup and CFO advisory. My engagements have spanned across early-stage startups, growth-stage ventures, VC funds, and housing society.</li></ul>					
Financial Due Diligence (FDD)	<ul style="list-style-type: none"><li>Conducted <b>10 plus</b> end-to-end financial, compliance, and operational due diligence for startup investments, supporting AIFs, VCs, and Family Offices with <b>AUM exceeding ₹500 Cr</b>-covering revenue validation and analysis, cost benchmarking, ROAS evaluation, burn rate diagnostics, runway projections, competitor benchmarking, and identification of potential exit opportunities etc.</li><li>Supported investor-side and founder-side diligence processes, including <b>pre-investment reviews and red-flag analysis</b>.</li><li>Conducted end-to-end financial due diligence for a housing society with <b>500+ members</b>, with comprehensive review of <b>100%</b> of transactions to detect irregularities and flag potential fraud.</li></ul>				
Startup and CFO Advisory	<ul style="list-style-type: none"><li>Provided <b>strategic finance support</b> to startup founders including cash flow forecasting, burn-rate analysis, KPI tracking, and MIS (Management Information System).</li><li>Assisted in creation of <b>pitch decks, business plans, cap tables, and equity dilution models</b> for many startups.</li><li>Conducted in-depth competitor analysis for an <b>edtech startup</b> to identify gaps in product offerings and market positioning, recommended new revenue streams, product improvements, and cost optimization strategies to enhance ROAS by <b>15-20%</b> and reduce burn rate by <b>20-25%</b>.</li><li>Led an operational review for a leading facility management startup with <b>20,000+ employees</b>—documenting current workflows, identifying inefficiencies, and recommending process enhancements to improve compliance and reducing investor reporting turnaround time by <b>7-8 days</b>.</li></ul>				
Valuation & Modelling	<ul style="list-style-type: none"><li>Conducted over <b>15 plus</b> valuation assignments for startups and SMEs across diverse sectors using <b>Discounted Cash Flow (DCF), Market Comps, and Net Asset Value (NAV) approaches</b>. These engagements supported critical objectives including <b>equity fundraising and regulatory compliance</b>.</li><li>Built dynamic, scenario-driven financial models with integrated sensitivity analysis <b>for a Europe-based mobile app startup and a space-themed amusement park venture</b>, tailored to support fundraising rounds, investor discussions, and board-level reporting. These models incorporated variable revenue drivers, cost structures, and capital deployment plans.</li></ul>
